A multi-faceted man

Readers and residents of The Village Rehabilitation and Care Community are probably most familiar with the Rev. John Rock as the visiting pastor who faithfully tends to the spiritual needs of his VRCC flock. But there's another side to that familiar presence, and he shared it during a recent turn as Guest Speaker. The presentation at The Village Assisted Living was titled "Anchor Bay Roasts - Experience Your Coffee," and as the proud owner of that aromatic business, he had plenty of insight to share regarding the nation's favorite morning beverage. In addition to information on the art of roasting coffee, what to experience in each cup and the attributes of flavor, he brewed a pot of one special blend to share with his appreciative audience.
